## What investment services and advice can you provide me?

We offer customized investment management services to retail investors. We offer advice on a full suite of securities, including equities, fixed income, mutual funds, ETFs, options, and similar investments. Our services are generally provided on a discretionary basis, which means that we have the power to buy and sell securities for your account without your prior consent. This authority is usually unlimited and remains in effect until you revoke it. We may provide non-discretionary investment advice, where we make investment recommendations to you and you decide whether to implement the recommendation. We do not give advice on any proprietary investment products or funds.

We provide continuous and regular supervision of advisory client assets as part of our standard service to you. In addition, we will conduct ad hoc reviews if you change your objectives or risk tolerance, upon significant market and economic events, or if we change our investment strategy as part of our standard service to you.

We require a minimum account size of \$2,000,000, which can be waived.

### Other Questions You May Have

*Given my financial situation, should I choose an investment advisory service? Why or why not?*

*How will you choose investments to recommend to me?*

*What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?*

## What fees will I pay?

Our quarterly fees are calculated as a percentage of the assets under our management, so our fees will rise and fall with the value of the assets we manage for you. While our fees may reduce the amount of your assets available for investment, we believe they are justified by our services and attention to your needs. Moreover, we believe our interests are aligned with yours in this type of fee structure. Nonetheless, we are economically incented to recommend that you place more assets in your account in order to increase the value of your portfolio, because as the value increases, so do our fees. We may also charge performance-based fees to qualified clients. Because performance-based fees involve a sharing of any portfolio gains between the client and the investment manager, they create an economic incentive for us to take additional risks in the management of a client portfolio. Performance-based fees represent less than 1.0% of our fee revenue.

In addition to our fees, with some custodians you will be charged transaction fees for their services. These fees vary depending on the custodian. Under a transaction fee arrangement, the more transactions effected in your account, the more fees you will pay, and high activity in your account does not assure positive portfolio performance. Some securities carry additional costs, such as mutual funds and ETFs.

There are additional fees such as internal fees and expenses charged by mutual funds (i.e., 12b-1 distribution fees and management fees that are assessed within the mutual fund) and exchange-traded funds, postage and handling, transfer taxes, and SEC fees for sales of securities.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

**You can find more information about our fees and costs under Items 5 and 6 of our Part 2A Brochure, available at [Adviserinfo.sec.gov](https://www.adviserinfo.sec.gov).**

### Other Questions You May Have

*Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

## **What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money may create some conflicts with your interests. You should understand and ask us about these conflicts, because they can affect the investment advice we provide you. Here is an example to help you understand what this means.

- Alley Investment Management Company has a solicitor's arrangement with Bernardi Securities.

**Additional information regarding conflicts of interest can be found in Items 5, 10, 11, 12, and 14 of our Part 2A Brochure, available at [Adviserinfo.sec.gov](http://Adviserinfo.sec.gov).**
